## Chapter 1. Sum Up

## Chapter 2. Subtract

### What is subtract of numbers?

To successfully perform the task of subtracting numbers, you must know what is subtraction. The term "subtraction" represents a mathematical operation. Subtraction is a process, an action that you do perform using numbers. Subtraction allows you to find the difference of 2 numbers.

You use the minus(-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That is, we take away one number from another.

### How to subtract numbers

Here you will find instruction about using the subtraction feature of calculator app.

To successfully subtract numbers, you must know what is subtraction

1. Enter the first number
2. Choose the minus(-) button.
3. Enter the second number.
4. Choose the equal (=) button.

The result from the subtraction is displayed.

You want to subtract 2 from 3. The equation will look like  $3-2=1$ . You will enter 3. Press minus. Enter 2. Press equals.

The result 1 appears on the screen.

## Chapter 3. Multiply

## Chapter 4. Divide
